The Icenian Namelayer Bill

This bill will establish the Icenia namelayer groups, and what their purposes are.

Section 1: Citizen

The following namelayer groups are considered the basic groups each Icenian Citizen should be Member on:

1. **Icenia-Citizen**

   This group functions as the in-game group chat for all Icenian Citizens, and as a reinforcement group for doors, pressure plates, and buttons that all citizens may access.

2. **Icenia-Factories**

   All public factories must be reinforced to this group. All doors, pressure plates, and buttons leading into a public factory room must also be reinforced to Icenia-Factories.

   Residents may be granted access to Icenia-Factories.

3. **Icenia-Nether1**

   This group will contain all the doors, pressure plates, and buttons that lead into the nether portal as well as areas in the nether itself.

   Residents may be granted access to Icenia-Nether1.

4. **Icenia-Farms**

   Every farm in Icenia must be reinforced to Icenia-Farms.

   Residents may be granted access to Icenia-Farm

Section 2: Infrastructure

The following groups will be used to reinforce various Icenian infrastructure such as rails and roads.

1. **Icenia-Roads**

   All roads in the city of Icenia must be reinforced to Icenia-Roads.

2. **Icenia-Rail**

   All rails built by Icenia must be reinforced to this group. Additionally, any structures associated with the rails will also be reinforced to Icenia-Rail

3. **Icenia-Infra**

   Any other infrastructure not applicable to the two groups above should be reinforced to Icenia-Infra. Some examples include parks, public buildings, and walls.

Section 3: Defense

The following namelayer groups pertain to the defense of Icenia. The Minister of Defense manages who is allowed in these groups:

1. **Icenia-Snitches**

   This group serves as the main snitch group for Icenia. All border snitches will be reinforced to this group.

2. **Icenia-City-Snitches**

   This group will host all of the jukebox snitches in Icenia City.

3. **Icenia-Defense**

   All Icenian militia members must be in this group. It will serve as the first level of access for Icenia defense bunkers and other infrastructure.
